## VASELINE NO GOOD FOR HAIR.

Dandruff Germs Thrive in it, as Well as in All Grease.

A well known Chicago hair specialist invited the Inter-Ocean reporter to come to his office and see, under a microscope, how the germ that causes dandruff thrives in vaseline. The specialist said that all hair preparations containing grease simply furnish food for the germs and help to propagate them. The only way to cure dandruff is to destroy the germs and the only hair preparation that will do that is Newbro's Herpicide. "Destroy the cause, you remove the effect." Without dandruff, no falling hair, no baldness. Ask for Herpicide. It is the only destroyer of the dandruff germ.

## DEFENDER SOLD AS JUNK.

The value of a cup defender after she has won the America's cup and maintained the honor and supremacy of Yankee boat building was aired today in the supreme court. Like the broken down race horse, the cup defender was relegated to the junk pile after she had outlived her usefulness, and the proud Constitution, now in the glory of her first trial, may look to her predecessor and see to what an ignominious end she is doomed. William Stricker is suing J. Oliver Iselin to recover \$500 commission claimed on the sale of the Defender. Mr. Stricker, on the witness stand, said he had heard Mr. Iselin wanted to sell the Defender for junk, and he introduced M. Samuels & Son, who bought the \$150,000 boat of two years ago for \$5,000. The jury, after a few minutes' retirement, returned a verdict for Mr. Iselin—From a New York Letter.

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver, and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price 25 cents. Samples free at Elvey & Hulet's drug store.

## MERELY A MATTER OF DIET.

"If a handsome woman wishes to preserve her good looks after she has passed the forty-year milestone," says a fashionable doctor, "she must not only pay the strictest attention to her bath, gymnastics and massage, but she must be more careful as to what she eats than any old Roman gladiator. One society woman, who at 45 is famous for her good looks and generally attractive and youthful appearance, never puts a bit of bread in her mouth. It might be rank poison for the scant civility it receives at her hands. Nor does a sweet of any kind, sort or description ever pass her lips, nor an ice, nor coffee, nor chocolate. What does she eat? Beef, mutton and all vegetables that grow above ground, but of these she eats only sparingly, so fearful is mildly of embonpoint, that foe to youthful appearance. Taking the subject as a whole, it is more a matter of diet than anything else, though the massage and the bath should not be neglected."—Chicago Chronicle.
